Geburtsdatum: 01/08/1978

Summary

After three years of full stack development with PHP, MySQL, JavaScript and CSS now three years leading the front-end side of big and small client projects at ETECTURE. Gives internal trainings on topics like GruntJS and Git.

Propagates modular programming of JavaScript and CSS. Takes care of Frontend Operations with GruntJS or GulpJS. Uses AngularJS for bigger applications, Sass or Less to preprocess CSS and Jade to preprocess HTML.

Co-organizer of KarlsruheJS and FrankfurtJS, speaker on the first EnterJS in Germany. Host of the interview podcast „Descriptive“ with guests from the JavaScript and web development world. Teaches himself new JavaScript frameworks in his free time. So far: AngularJS, EmberJS and AmpersandJS. Favors CommonJS and Browserify when it comes to JavaScript modules.

Very interested in product development with JavaScript and Frontend Ops.

Skills

Sprachen/Frameworks/Tools

- HTML5
- CSS3
- Less
- Sass
- AngularJS
- jQuery
- jQuery Plugin Development
- GruntJS
- GulpJS
- GruntJS Plugin Development
- Git
- Node.js
